

Crime Awareness, Campus Security, and Fire Safety Report – 2017---2018

The “Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act” was enacted by Congress and signed into law in November 1990, and amended in 1992, 1998, 2000, and 2008. This law requires us to provide statistics regarding the incidence of crime on our campus and information on our policies and procedures for maintaining a safe and secure environment for students, employees, and visitors while they are on campus.

Sofia University is committed to providing a safe learning and working environment for its students, faculty, staff and visitors. Safety is a community wide effort, which requires awareness and diligence. On the campus of Northwest Career College, we take care to minimize potentially unsafe situations through our policies and procedures as well as encouraging everyone to take responsibility for their own security.

Procedures for Reporting Crimes

Life---threatening Emergencies: Any life---threatening emergency is to be reported to local authorities by dialing 911. Additionally, students reporting the emergency should then notify faculty or staff if not already informed.

Criminal Actions: Criminal actions occurring on campus should be immediately reported to the School Director or COO, and/or local police. The School Director or his designee maintains a log of all criminal activity reported in accordance with the Clery Act. Sofia University works with local law enforcement as needed. There is no written memorandum of understanding between Sofia University and the Palo Alto Police Department.

Major offenses including but not limited to rape, domestic violence, dating violence, stalking, murder, aggravated assault, robbery, auto theft, etc. are reported to Metro and joint investigative efforts between the college and with the local agencies are initiated to solve these serious felony crimes. The prosecution of all criminal offenses is conducted at the Municipal or Justice Courts levels.

Response to Reports

Sofia University responds to reports of emergencies and criminal actions, as it deems appropriate under the circumstances. Sofia University may contact local law enforcement authorities, emergency medical services, local fire departments, or other outside agencies or entities.

In the case of a major offense, Sofia University will conduct an investigation into any activities that occurred on campus by reviewing available video tapes and time clocks and speaking to

staff and student witnesses to determine the facts of the offense and determine the institution's response to the crime. The institution will use the standard of "beyond a reasonable doubt" in determining whether or not disciplinary action is required under the Student Code of Conduct.

Timely Warning Reports

A timely warning to the campus community is distributed regarding any of the listed crimes (see Reportable Offenses under the Clery Act) which are deemed to represent a threat to the students and employees, and which are reported to campus officials or to local police agencies. The campus crime alert is issued in a manner that is timely and will aid in the prevention of similar crimes.

The manner of dissemination to alert the campus community may include one or more of the following methods: e-mail, voice mail, and text messages. Campus officials may also utilize the school website, campus bulletin boards, or its social media pages to post relevant warnings, updates and advisories. Campus officials may decide to issue an alert about a crime occurring off-campus but in a location frequented by students, even though such a crime would not be included in the annual report.

Crime Alert Emails disseminated to the Sofia University campus population include a description of the crime, date and approximate time of occurrence, the location and a description of the suspect. Incident Resolution Emails disseminated to the Northwest Career Sofia University population include the same information as the Crime Alert Emails, as well as information on the resolution if applicable.

Annual Disclosure Preparation

The School's Director or COO or his designee maintains a log of all criminal activity reported on campus. This activity log is reviewed each year and used to prepare the annual crime statistics listed in this report.

A person is mentally or physically incapacitated when that person lacks the ability to make or act on considered decisions to engage in sexual activity.
- **Domestic Violence:** “Domestic violence” means a “felony or misdemeanor crime of violence committed by:
 - a current or former spouse or intimate partner of the victim,
 - a person with whom the victim shares a child in common,
 - a person who is cohabitating with or has cohabitated with the victim as a spouse or intimate partner,

The existence of such a relationship shall be determined based on the reporting party’s statement and with consideration of the length, type and frequency of interaction between the persons involved in the relationship.

Sexual Assault Prevention

Sofia University strongly encourages students to be actively involved in sexual assault prevention via the crime prevention recommendations presented in this report. Additionally, sexual assault prevention is included in the discussion of this report conducted during new student orientations. Bystander Intervention is encouraged among students to prevent sexual assault.

Examples of Bystander Intervention include:

1. Confronting people who seclude, hit on, try to make out with, or have sex with people who are incapacitated;
2. Speaking up when someone discusses plans to take sexual advantage of another person;
3. Interjecting yourself into a conversation where another person seems unsafe;
4. Refusing to leave the area (or call police) if a person is trying to get you to leave so they can take advantage of another.

In a situation involving imminent threat or danger to the health or safety of any individual(s), students are generally expected:

1. To contact emergency officials by calling 911 to report the incident;
2. To remain with the individual(s) needing emergency treatment and cooperate with emergency officials, so long as it is safe to do so; and,
3. To meet with school or law enforcement officials in cooperation with any subsequent investigation.

Sofia University will consider the taking of responsible action in an emergency situation when determining the appropriate response for alleged policy violations that may have occurred by the reporting student prior to or during the emergency situation.

Victim Services

Victim advocates in Palo Alto can be reached by contacting the Palo Alto Police Department.

The institution will make reasonable accommodations whenever possible to assist in the continuation and completion of the victim's educational program.

Missing Student Notification

The institution does not provide on-campus housing and therefore does not maintain policies regarding missing student notifications.

Emergency Response and Evacuation Procedures

Sofia University, will, without delay, and taking into account the safety of the community, determine when students and staff must be notified of an emergency and will notify students and staff of the emergency, unless such notification will, in the professional judgment of responsible authorities, compromise efforts to assist a victim or to contain, respond to or otherwise mitigate the emergency.

In the event of an actual emergency, students and employees will be notified in the following ways:

1. The campus community will be notified by e-mail. Students and staff should take responsibility for regularly checking their e-mail.
2. A school representative will personally visit each classroom, lab, and office; will advise those present of the nature of the emergency; and will instruct those present

as to what action they should take. Possible actions may involve waiting for further information, moving to another part of the building, or evacuating the building.

The Director or COO are ultimately responsible for assessment of the situation and determining appropriate actions in response to the emergency, although faculty and staff members are encouraged to use appropriate discretion if they encounter an emergency situation and act accordingly.

In the event of an emergency or situation that will affect the community at large, the Director, COO or another designated employee will notify local authorities by calling 911.

If an immediate threat is not clearly evident, and it appears intervention will not escalate the situation, school officials may request that a perpetrator leave the building or take other appropriate action to diffuse the emergency situation.

Emergency response and evacuation procedures are reviewed and table top exercises are conducted in annually during a schedule staff and faculty meeting. These procedures are discussed with employees during their orientation if hired after the annual meeting. Evacuation routes in the event of a fire or other emergency are posted within every room in the building. If an evacuation route is altered due to the emergency in question, this information will be

communicated via email notification and the verbal announcements made in each classroom. Evaluations, after action, and corrective action reports, which are designed for assessment, and evaluation of emergency plans and capabilities are completed after each drill.
